## SAFE SYSTEMS AND SOLUTIONS

Safety Genius provides workplace solutions designed to minimise the risk of accident and injury even in the most stressful of emergency situations.

Routine maintenance, an unexpected outage, installations, repairing storm damage: safety is paramount whenever an electrical current is involved. That's why, at Safety Genius, our uncomplicated, practical and efficient safety systems and solutions help isolate potential hazards and ensure worker safety.

At Safety Genius, our team can help you to select the solutions most suited to each individual work environment since our product range encompasses both small and large scale safety needs. From lockout/tagout options that operate with a lock and key based system, to lockout hasps that enable multiple people to work on isolated equipment at the same time, we don't skimp on safety solutions.

With more than a decade in the safety industry, our team know the importance of ensuring your workspace, staff and service offerings meet the standards required when it comes to safety. So, whatever your needs, the team at Safety Genius take pride in providing personalised and speedy service, using quality materials designed to last – and keep you and your staff safe.

“ Safety Genius goes the extra mile with product quality and a will to fulfil our needs at any cost, all done with great pleasure. ”

## PADLOCKS

Portable Padlock  
Lockout Station (12 holes)  
PPLS – 12

- Made from engineering plastic this sturdy unit can carry up to 12 padlocks

Safety Padlock
